Introduction

What is an affiliate program?

An affiliate program is a revenue sharing program where you, the affiliate, drive traffic to our, the advertiser's, website in exchange for commissions.

We provide you with affiliate links in the form of text links and banners that you can then integrate into your website, emails and blogs. When someone clicks on an affiliate link on your website, email or blog and goes through to the Genes Reunited website you get a commission on every subscription they purchase!

Why join the Genes Reunited affiliate program?

- ✓ Earn 25% commission on every Genes Reunited sale – which means you can earn up to £20 on a single transaction!
- ✓ Receive on-going personal support, advice and promotional tools to make it as easy as possible to generate sales.

Who can join?

Everyone! If you run a large commercial web site, a personal blog or anything in between you're welcome to apply to join the program. You do not even need a Genes Reunited account to be a Genes Reunited affiliate!

If you have more than one website, you can enrol all of them in the affiliate program by submitting all of your domains when you sign up – each domain will be reviewed for joining the program on an individual basis.
